EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Change the title to --Semiconductor device with diamond-like carbon film on backside of substrate--.

Cancel claims 6-11, 14-16, 37-40, 50, 56 and 69-76 (being drawn to a non-elected species there being no allowable generic or linking claim).

Allowable Subject Matter

2. Claims 1-5, 33-36, 49, 55 and 61-68 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose the claimed semiconductor device particularly characterized by location of a diamond-like carbon (DLC) film relative to claimed substrate and transistor (e.g. on the back surface of the substrate).

While prior art suggests a DLC film in a semiconductor device, none of the prior art suggests, for example, a DLC film on the back surface of the substrate having transistor of the front surface [e.g. embodiment 5, Figs. 1a-1c and Fig. 4]. The claimed location of DLC film, for example, advantageously can prevent electrostatic breakdown of not only TFTs of the active matrix circuit but also TFTs of the gate driver circuit, the source driver circuit, and the logic circuit e.g. page 12, lines 12-16].

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
